00:00.000 --> 00:06.000

Pensions made simple: Your Lifetime Allowance

00:06.000 --> 00:11.000

A pension is a tax efficient way to save for life after work.

00:11.000 --> 00:15.000

However the Government sets limits on the amount of pension you can build up

00:15.000 --> 00:18.000

before you have to pay extra tax.

00:18.000 --> 00:21.000

This video explains your lifetime allowance.

00:21.000 --> 00:25.000

This is the total value of all of your pensions that can be paid to you,

00:25.000 --> 00:29.000

excluding the State Pension, before you must pay extra tax.

00:29.000 --> 00:33.000

To calculate the current value of your LGPS pension,

00:33.000 --> 00:35.000

multiply the pension by 20,

00:35.000 --> 00:40.000

and add any lump sum you have built up.

00:40.000 --> 00:43.000

The lifetime allowance applies to all of your pension savings,

00:43.000 --> 00:47.000

not just your LGPS pension.

00:47.000 --> 00:53.000

Each time you take your pension, you use up part of your lifetime allowance.

00:53.000 --> 00:56.000

Most people are not affected by the lifetime allowance

00:56.000 --> 01:01.000

as the value of their pension savings is below the limit.

01:01.000 --> 01:06.000

If the value of your pension is close to or is more than the lifetime allowance,

01:06.000 --> 01:10.000

there are things you can do to reduce the tax you may have to pay.

01:10.000 --> 01:14.000

You can take your LGPS pension early.

01:14.000 --> 01:19.000

You can swap some of your annual pension for a lump sum at retirement.

01:19.000 --> 01:23.000

Both of these options would reduce the total value of your pension

01:23.000 --> 01:26.000

and so may keep you within the allowance.

01:26.000 --> 01:28.000

You can also slow down your pension growth

01:28.000 --> 01:32.000

by moving to the 50/50 section of the Scheme.

01:32.000 --> 01:40.000

Here you pay half the normal contribution rate to build up half the pension.

01:40.000 --> 01:42.000

If the value of your pension exceeds the lifetime allowance

01:42.000 --> 01:47.000

you will have to pay a tax charge when you start taking your pension.

01:47.000 --> 01:51.000

The charge is 25% of the excess if it's taken as income,

01:51.000 --> 01:55.000

or 55% if it's taken as a lump sum.

01:55.000 --> 01:59.000

You can ask the LGPS to pay the tax on your behalf.

01:59.000 --> 02:02.000

This cost will be recovered by reducing your LGPS lump sum

02:02.000 --> 02:08.000

or permanently reducing your annual pension.

02:08.000 --> 02:11.000

The last time the government reduced the lifetime allowance,

02:11.000 --> 02:15.000

it set up protections for those who had already built up large pensions.

02:15.000 --> 02:20.000

You can apply for protection by completing an application form online.

02:20.000 --> 02:23.000

This is a complex area.

02:23.000 --> 02:26.000

It is your responsibility to pay the right amount of tax.

02:26.000 --> 02:30.000

So always take independent financial advice

02:30.000 --> 02:35.000

before you take any action to reduce your tax liabilities.

02:35.000 --> 02:37.000

For more information about the lifetime allowance,

02:37.000 --> 02:40.000

visit the Government's website.

02:40.000 --> 02:44.000

You can also visit the LGPS website and use our quick check tool

02:44.000 --> 02:46.000

to see if you might be affected,

02:46.000 --> 02:50.000

or watch more of our 'Pensions Made Simple' videos.

02:50.000 --> 02:55.000

LGPS. For you. For now. For the future.

02:55.000 --> 02:57.000
